## Honoring Milestones

Grand Events

February was an “eventful” month for Octagona India. Two of our clients formally inaugurated their facilities in India – one in Pune and the other in Bangalore. **Octagona was invited to attend these events by the host clients** and it gave us immense pride and joy in

joining them in these functions. The function in Pune was of a fast growing mechanical transmission parts company that and the one in Bangalore belonged to a very recently incorporated company that is going to sell couplings to its customers in India. Both companies are foreign subsidiaries in India.
